

Will Kosovo use solar energy for district heating?

In late December 2022, Kosovo became the first country in the Western Balkans Economy to use solar energy for district heating. Kosovo's Minister of Finance, Labour and Transfers, Hekuran Murati, said the project would ensure access to the central heating system for about 38,000 citizens.

Does Kosovo have solar power?

Kosovo has the potential of capturing solar energy directly and converting it to electricity. The region of highest solar potential based on global horizontal irradiation is the southeastern part of Kosovo, centred around the city of Gjakova. Solar power is already used on the roofs of some buildings.

How Unisolar is developing our country?

Here you can see how we are developing our country, with the tireless work of our team ... Unisolar LLC, was founded in January 2021, by electrical energy engineers and the renewed one: Mr. Bujar Guci in Kosovo.
