

The turbine systems are backed up by a diesel generator and battery storage system to ensure continuous reliable power. Benefit The installation of the Proven/Kingspan wind turbines on the Falkland Islands has provided green, reliable, cost effective power. Previously power was produced from diesel generators which proved expensive.

determine; installation environment, expected ground conditions, distance from existing infrastructure etc  
-Develop a procurement strategy for this system to enable an increase in procurement and capital costs and contractor uplifts  
-Develop a maintenance schedule proposal once system details have been outlined and initially designed 2
