

How does Candi solar work in South Africa?

In South Africa, Candi Solar plans to deploy approximately 100 MW of capacity. "We help accelerate the wave of clean energy by taking out capital investment decisions for businesses," said Flamand. "We invest in the business up front and get paid per kilowatt delivered." He said the young company is taking a phased strategic approach.

Is solar a viable alternative energy option in South Africa?

In South Africa, where our national grid is unreliable, it is consistent energy supply and cost savings that make solar a compelling alternative energy option. Pretoria-based, Menlyn Retail Park's 950 kWp system, which became operational in October 2023, provides just under 40% of the retail park's energy needs.

Can solar & battery storage bridge a gap in South Africa?

This initiative addresses a pressing need in the South African market, where conventional financial instruments fail to effectively address more than 90% of companies, according to co-founder and finance director, Fabio Eucalipto. It's a gap that Candi Solar is eager to bridge. Solar & Battery Storage as a Load Shedding Solution?

Which countries have solar power plants?

In the rainbow nation, the Zurich, Switzerland-based solar energy provider is present in at least eight provinces. In Gauteng, for example, Candi has installed a 135 kWp ground-mounted solar power plant to supply the facilities of French energy solutions and automation giant Schneider Electric.

Does Candi solar have a business case?

"The business case for solar is clear but the capital is missing. This is a key gap in the market which Candi Solar seeks to address," explains Eucalipto. Not a new player in the solar game, but a relatively new entrant in the South African market, Candi Solar offers customised solar and battery storage solutions.

Is Candi solar taking a phased strategic approach?

He said the young company is taking a phased strategic approach. He noted that in Africa, solar is often coupled with batteries. Candi Solar specializes in commercial and industrial (C&I) solar projects, mainly rooftop and behind the meter.
