

St Vincent and Grenadines 3.5 kW solar system cost

How much does a 3.5 kW solar system cost?

As of January 2022, the average cost of solar in the U.S. is \$2.77 per watt (\$9,695 for a 3.5-kilowatt system). That means the total cost for a 3.5kW solar system would be \$7,174 after the federal solar tax credit (not factoring in additional state rebates or incentives). 3.5 kW solar panel system cost: what are average prices in your state?

Do I need a 3.5kW Solar System?

Whether or not you need a 3.5kW solar system will depend on many things. If you are a Residential customer and you use between 13.3kWhs and 21.1kWhs then a 3.5kW solar system could be a good choice to help reduce power bill costs.

How many square meters does a 370w solar system require?

This is because as panels get large (in Watts) they also become a little bit more efficient. A 3.5kW system using 370W panels will require about 15.8 square meters of roof to be installed. Each 370W panel measures about 1.75m x 1m. 3.5kW solar power systems are mostly suitable for medium energy users (2 - 4 people).

How many kWh can a 3kW Solar System produce?

For example, according to the Global Solar Atlas, a 3kW system could potentially produce roughly 12 kilowatt-hours (kWh) of solar power per day (about 4,300 kWh per year) near Minneapolis and St. Paul, Minnesota. Down south in sunny Albuquerque, New Mexico, however, a 3kW system could produce nearly 16 kWh daily (about 5,700 kWh per year).

Will a 3 kW solar panel cover my electricity bill?

Installing a 3 kW solar panel system won't cover the entire electricity bill of most homes. But, it can be an option for people who want to install solar panels on a tight budget or for those who don't use much electricity.

How many solar panels do you need for a 3kW system?

The number of solar panels you need for a 3kW system depends on the wattage of your solar panels, but you'll likely need eight to 10 panels if you go with the kinds of panels normally used for residential applications.

The Government of St. Vincent and the Grenadines has signed an agreement with the CARICOM Development Fund (CDF) for a concessionary loan to be used for the establishment of a Solar Photovoltaic Renewable Energy Project at the Argyle International Airport (AIA).
