Can I get a solar loan in Curacao?

As you can see the more electricity usage you have, the faster you will earn back your one time investment. Many banks already offer so-called "green loans", financing the purchase of your solar system on Curacao for a monthly installment that may be even lower than the monthly price you pay for electricity now.

How much does electricity cost on Curacao?

On Curacao, the costs per kWh calculated in 2012 is ANG 0,73. If you are a home owner, commercial property owner or owner of an industrial building on Curacao, please have a look at your electricity bills and calculate the average amount of kWh you use and the money you spend on electricity per year.

Why should you choose sunboost commercial solar?

Sunboost's commercial solar solutions bring these benefits directly to you. When you choose solar power, you're not just saving on energy bills; you're also choosing a greener path. We incorporate safety into the product's design and believe in safe working practices to offer you the best.

Does sunboost sell cheapest gear?

By default, they sell cheapest gear available. However they also sell quality gear if you ask for them. More often than not, you are likely to get very competitive price on the quality gear compared to other installers. Now regarding installer: none of the installation will be performed by them "sunboost".. They are sort of Jim's antenna..
