

Sweden livoltek lithium battery

What is livoltek BHF HV battery system?

The livoltek BHF HV Battery System is ideal for new installation of residential energy storage system. With high energy density, high efficiency, modular stacking design and IP65 level, BHF series battery is space-saving for indoor and outdoor installation. Up to 30 kWh system can fit your high energy demand.

How can I use my livoltek battery?

In addition to storing solar energy, the battery can also be used to respond to the changing electricity prices. This can be done by scheduling storage sessions via the accompanying 'My Livoltek' app. This way you are able to store energy at 'cheap moments' and use it again at later times.

Where should a livoltek solar battery be installed?

To maximize the lifetime of your Livoltek solar battery, it is crucial to install it in the right location. Be sure to place the solar battery in a cool, dry room with plenty of available space. Ideal locations are e.g. the basement or garage.
