

Why are Syrians using solar panels?

Cut off from the power grid and with fuel costs soaring, Syrians in a poor, embattled enclave have turned en masse to solar panels to charge their phones and light their homes and tents. Solar panels covering rooftops, some of which have been damaged in government attacks, in Binnish, Syria.

Where does solar energy come from in Syria?

The use of solar energy spreads from northwestern Syria, which started relying on solar power around 2016, passing through areas in the north-east, ending with the areas under the control of the Syrian regime, which directed a clear trend to generate electricity through them, not only in large industrial facilities but even in homes.

Where are solar panels located in Syria?

Solar panels, big and small, old and new, are seemingly everywhere in Idlib Province along Syria's border with Turkey, rigged up in twos and threes on the roofs and balconies of apartment buildings, perched atop refugee tents and mounted near farms and factories on huge platforms that rotate to follow the sun across the sky.

How much does a solar panel cost in Syria?

The price of a panel capable of charging a small battery and lighting a room is about 80,000 Syrian pounds, regardless of its quality, while the monthly salary of her husband, who is an employee in an agricultural establishment affiliated with the Syrian regime, is about 110,000 Syrian pounds.

Are solar panels a viable alternative energy source in Syria?

As an option that seemed to be one of the best alternative energy sources in Syria, reinforced by the absence of fuel, the spread of solar panels began in most regions, respectively, years ago, amid "government" support and adoption of this trend.

Are solar panels a better option than losing electricity in Syria?

According to an opinion poll conducted by Enab Baladi, a number of Syrians residing in various governorates considered that alternative energy through solar panels is a better option than losing electricity despite its high costs and regardless of the controlling parties.
