Our fully compliant engineers will carry out all the work. With Renewable energy what's to come is looking brilliant. Looking to upgrade your energy systems?

Who are Manx solar electrical?

You might be surprised! 2019 Manx Solar Electrical Ltd. Registered in the Isle of Man No. 127 689C. VAT Registration No. 004 6877 73 The Isle of Man's leading renewable energy provider, Solar PV, Heat Pumps, EV Charging, Tesla Powerwall, Solar Edge, Stiebel Eltron, Dimplex, Mitsubishi, JA Solar.

Where does the Isle of Man get its electricity?

Most of the Isle of Man's electricity is generated at a gas-fired power station in Douglas. Manx Utilities (MU) has announced that electricity prices on the island are to rise by 30%. The increase will be applied in two increments of 15%, one in April and then one in July.

Is it time to install solar panels in the Manx?

Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity). There is something very satisfying about receiving an energy bill from Manx Utilities which is not only zero, they might pay you because of excess energy sold to the grid. There has never been a better time to install solar.

How many solar sites will Manx Utilities have?

Working with the Department of Infrastructure, Manx Utilities has identified over 30 sites suitable to deliver a total of 30 Megawatts of solar power on the public estate. The first phase of solar installations will see five projects being progressed with more sites to be identified to reach the 10 Megawatt objective.

Solar panel electricity systems, also known as photovoltaics (PV), capture the sun's energy using photovoltaic cells. The cells convert the sunlight into electricity, which can be used to run household appliances and lighting. ... Many properties in the Isle of Man are suitable for solar PV installations and you would be surprised how much ...
