Find relevant data on energy production, total primary energy supply, electricity consumption and CO2 emissions for Gambia on the IndexMundi Homepage. Find relevant information for Gambia on energy access (access to electricity, access to clean cooking, renewable energy and energy efficiency) on the Tracking SDG7 homepage.

Is re a solution to energy problems in the Gambia?

Policy makers across africa have been among the last to embrace Re as a solu-tion to their energy problems. They are often locked into crisis management on a day-to-day basis. The country's policy makers need to be persuaded that Re has a real future in the energy mix of The Gambia. They need to demonstrate this by their actions.

Will re be a part of the Gambia's energy future?

The Gambia has already started this process by setting up a strong policy that includes Re as part of its energy future. it is in the process of building the institutional and legal framework that will help to deliver this promise.

Should Gambia invest in the energy sector?

Future investment only occurs if there is sufficient confidence that investors today are gaining good returns. The Gambia has an attractive investment environment in tourism and other develop-ment sectors. it needs to broaden this to the energy sector. That means building its own capacity to implement its policies to promote and support Re.

How much energy does the Gambia use?

in 2010, Total energy Supply (TeS) in The Gambia was 407 926 TOe. The energy consumption per capita in The Gambia in 2007 was 81 kilogrammes of oil equiva-lent (KGOe) according to figures from the Global environment Facility (GeF) and the United Nations industrial Development Organisation (UNiDO) in 2011. biomass, Kuntaur Wharf on the River Gambia.

How is electricity financed in the Gambia?

A large proportion of this is already financed through on-going national and regional projects sponsored by development partners. The Gambia is poised to provide access to electricity for all its people. His Excellency, President Adama Barrow has stipulated that there is to be Universal Access by 2025.
