

Is there a market for roof-top solar energy systems in Timor-Leste?

Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

Does Timor-Leste have electricity?

Stakeholders confirmed that the state delivers Timor-Leste's national electricity supply, with no private actors involved. The electricity system's power stations and transmission lines, including those being modernised through assistance from the Asian Development Bank, are shown in Fig. 4.

Who owns Electricidade de Timor-Leste?

Established in 1966, it is owned by 68 members--49 from the region. The Asian Development Bank and the Government of Timor-Leste have signed a \$35 million loan to modernize the country's power distribution system and strengthen state utility Electricidade de Timor-Leste's ability...

Does geopolitics influence Timor-Leste's energy reconstruction?

Totalling 280 MW, the national generation capacity is much greater than the current national peak load of 70 MW. It was commented that the two largest power stations were second-hand generators installed through a partnership with China, highlighting the influence of geopolitics in Timor-Leste's energy reconstruction. Fig. 4.

Does Timor-Leste's electricity network support water security?

Interview findings suggested that the existing electricity network in Timor-Leste, with noted excess capacity, provided a largely untapped potential for supporting irrigation needs, such as groundwater pumping, to enhance water security.

Do Rural Households use electricity in Timor-Leste?

Stakeholder responses and anecdotal observations of rural households in Timor-Leste revealed that lighting, mobile phone charging, television, and radio dominate electricity use with limited adoption in agriculture-related activities. According to respondents, some farming groups operated small diesel generators for rice milling.

Timor-Leste, also known as East Timor, is a Southeast Asian nation occupying half of the island of Timor. It has a population of approximately 1.3 million people, mostly living in rural areas. The geography of Timor-Leste is mountainous with a rugged coastline, creating obstacles for infrastructure development and telecommunication networks.
