

Timor-Leste smartflower solar panel

What is smartflower solar?

SmartFlower Solar produces unique, ground-mounted solar panel systems that include a sun tracker and a number of other high-tech features. This 'smart' solar panel system is an all-in-one, self-sustaining system that differs greatly from the traditional monocrystalline or polycrystalline rooftop panels.

Is there a market for roof-top solar energy systems in Timor-Leste?

Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

What does a solar technician do in Timor-Leste?

Technicians in Timor-Leste have experience in small-scale, off-grid solar energy systems. Commercial or industrial scale installations are more complex and appropriate technical capacity is scarce.

Can a solar power grid be installed in Timor-Leste?

With the new UN reforms, the United Nations in Timor-Leste, under the leadership of the Resident Coordinator has now started lighting the way with its solar-powered grid which has begun to give maximum dividends. It took almost a year - from feasibility to completion - to see the solar panel installed at the UN Timor-Leste compound.

Are smartflower solar panels a good choice?

If you care about design and ease of use more than cost-effectiveness, and also do not need to cover all of your energy needs with one system, then the SmartFlower solar panel system can be a good option for you. Alternatively, a rooftop or traditional ground-mounted solar panel system will be much more affordable and practical for most consumers.

What is smartflower?

leading the clean energy revolution with Smartflower. We each can do our part to protect the environment. Smartflower is the innovative sculptural solar flower with advanced photovoltaic solar panels that open and close to cleaning itself for maximum efficiency.

Instalando uma smartflower não é preciso falar, o equipamento já diz por si só para todos que estão chegando na empresa". Como exemplo, Hipólito citou o caso de um cliente que construiu uma usina e depois optou por comprar uma smartflower também. "Ele a colocou um pouco afastada da planta solar, mas ainda sim dava para ver os dois.
