Pylon US2000C/US3000C Battery - CAN Failure - No Battery. Issue: Solis Hybrid Inverters generate a "CAN Failure" or "No Battery" alarm when connected to US2000C or US3000C Pylon batteries. SolisCloud Alarm. m.ginlong or pv.ginlong . Solution 1: Change the cable to the updated version provided by your distributor.

IIRC each US3000C can delivery up to 74A, so two or more in parallel would exceed the current carrying capacity of the Solis battery cables and/or the Amphenol connectors they are attached to. A dual pole fused disconnecter (like @Whitewalls and @rpd0m have) is recommended. J. jgh New Member. Joined Mar 26, 2023
