

# U S Virgin Islands solar inverter kit for home

Sol-Ark is a new inverter on the block (or grid, I suppose). It is the brainchild of U.S. veterans looking to engineer a solution to help families be less dependent on the grid in an affordable way. They wanted to take the autonomy and top end abilities of the off-grid inverter without losing continuous power efficiency.

## U S Virgin Islands solar inverter kit for home

The Spanish Town solar farm in St. Croix, U.S. Virgin Islands--in operation since 2015--received significant damage during the 2017 hurricanes. The plant remained offline for nearly 5 months, while grid repairs were implemented, and production was limited to less than 45 percent of its energy capacity once reenergized.

USVI Solar I is the largest photovoltaic system in the U.S. Virgin Islands. It is of enormous importance for approaching 40,000 island inhabitants. The five megawatt output is intended to generate around 7.9 million kilowatt hours of green energy each year, amounting to about ten percent of the energy requirements.
