Power Solutions International, Inc. entwickelt, konstruiert, fertigt, vermarktet und vertreibt eine breite Palette von fortschrittlichen, emissionszertifizierten Motoren und Antriebssystemen, die mit einer Vielzahl von sauberen, alternativen Kraftstoffen wie Erdgas, Propan und Biokraftstoffen sowie mit Benzin- und Dieselooptionen betrieben werden.

Gas-fired generation dominates Uzbekistan's electricity mix. It accounts for around 87% in 2023 and a forecasted 81.9% in 2024. However, this share will gradually decline over the coming decade (to about 63% in 2033) as the renewable energy and hydropower sectors expand. The government's efforts to reform the energy sector will likely boost private investment in the ...

WOOD DALE, Ill., March 31, 2022 (GLOBE NEWSWIRE) -- Power Solutions International, Inc. (the "Company" or "PSI") (OTC Pink: PSIX), a leader in the design, engineering and manufacture of ...

3 ???&#0183; Power Solutions International, Inc. designs, engineers, manufactures, markets, and sells engines and power systems in the United States, North America, the Pacific Rim, Europe, and internationally.

We expect gas-fired projects to be the main source of opportunities for contractors in Uzbekistan's power sector over the next decade. Uzbekistan's has been relying on its large natural gas reserves for energy production over the past decades - more than 80% of the total power generation mix is contributed by thermal power plants (TPP), of which the large ...
