

Could Norfolk be the UK's largest solar farm?

Norfolk is in line for yet another vast solar farm which will mean the county could be home to the three largest in the UK. The latest scheme is for a 2,800-acre site, known as the Drovers, on farmland around Swaffham and Castle Acre.

What is Island Green Power's new solar farm?

THE DROVES IN DETAIL The solar farm proposed by Island Green Power will be located between Swaffham and Castle Acre and span roughly 2,800 acres of countryside. The panels will generate up to 500MW of energy - enough to power around 115,000 homes annually - and will be in use for up to 60 years.

Will a huge solar farm be built in Breckland?

People living around the site of a huge solar farm planned for Breckland have had their first chance to meet developers. The energy firm RWE wants to build panels on five sites, generating enough energy to power 363,000 homes.

Who can fit a solar installation for Holton St Peter primary school?

Norwich Electrical approached Spartek to fit a solar installation for Holton St Peter Primary School early years. We were thrilled to be part of the project and work for another well-known local electrician firm. See more examples of our top quality workmanship. It's important you get the information needed regarding your electrical installations.

Will the droves & High Grove solar farms be near the A47?

The Drovers and High Grove solar farms will be close to the A47 in Swaffham (Image: Ian Burt) Plans for the Drovers have been outlined by energy firm Island Green Power. If it goes ahead, it will be second in size only to neighbouring High Grove, which will be fifteen times the current biggest in Britain if it receives planning permission.

The schemes have already prompted huge opposition in the county and Mr Jermy has attributed some of the blame to landowners being bought out by developers.. The Drovers and High Grove solar farms will be close to the A47 in Swaffham (Image: Ian Burt) He said: "I am concerned about the potential loss of high-quality agricultural land to solar farms. . . .

A Norfolk village is at the epicentre of a row over plans for a solar farm sprawling across 2,700 acres of surrounding countryside. Hempnall, near Long Stratton, will be encircled by panels as part of the scheme, known as East Pye, which would be roughly 10 times the size of the UK's current biggest.
