

Despite wide international recognition, Western Sahara still remains under occupation because of a complex web of geopolitical and strategic interests of neighboring countries and their Western allies. The conflict of Western Sahara is one of Africa's longest lasting territorial disputes. It has been going on for more than three decades.

Morocco virtually annexed the northern two-thirds of Western Sahara (formerly Spanish Sahara) in 1976, and the rest of the territory in 1979, following Mauritania's withdrawal. A guerrilla war with the Polisario Front contesting Rabat's sovereignty ended in a 1991 UN-brokered cease-fire; a UN-organized referendum on final status has been ...
