

Who is solar power Vietnam Technology JSC?

Solar Power Vietnam Technology JSC. Solar Power Vietnam Technology JSC is one of the leading solar panel manufacturers in Vietnam. One of the special things is SPV's solar panel using solar cell from Solar World (Germany). I ensure the best quality solar panels to supply for all.

Is solar power a good option for Vietnam?

Solar power is an increasingly attractive electricity generating option for Vietnam thanks to recent cost reductions, fast construction, and the contribution solar power can make to ensuring energy security and environmental sustainability.

Does Vietnam need a solar deployment strategy?

Vietnam is a major manufacturer of solar photovoltaic equipment and currently exports most of its production. A strong solar deployment strategy could shift the focus toward domestic use. Vietnam holds 7 percent of the global solar photovoltaic market and produces enough cells and panels each year to generate 5 GW of electricity.

Who are the main power producers in Vietnam?

In Vietnam, the main power producers are state-owned enterprises whose risk appetite is quite different from the diverse appetites of international IPPs, investors, or smaller Vietnamese companies not linked to the government. The time and money the IPP spends during development (development risk).

Can solar projects be financed in Vietnam?

Owing to the current contractual structure proposed by the government, most solar projects in Vietnam are expected to be financed under a corporate loan or at 100 percent equity, with refinancing possible at a later stage.

When will Vietnam's National Power Development Plan 7 be revised?

In March 2016, Vietnam's Prime Minister approved, in Decision 428/QĐ-TTg, the Ministry of Industry and Trade (MOIT)'s proposed revisions to the National Power Development Plan VII (Revised PDP 7) for the period 2016-2020 with a vision to 2030.
