

What is xstorage home?

xStorage Home puts you in control of your energy, either maximising self-generated solar power, or choosing when to charge from the grid based on variable pricing tariffs. xStorage Home can provide your house with energy if the grid fails, powering your lights and security systems.

Are xstorage home battery systems safe?

xStorage Home battery systems have been developed to meet the highest electrical safety standards. Eaton is a global power management leader working with highly qualified installers. You'll be able to follow the generation and consumption of your energy, check your battery status, all from your phone or tablet, over the app's friendly interface.

When should I use xstorage home?

xStorage Home can be specifically useful when the maximum power consumption of the household is limited by the energy provider, for example through a utility contract. Any consumption above the contracted maximum peak power consumption will be penalised and the homeowner will be charged accordingly.

How many power inverters does the xstorage home system offer?

The xStorage Home system offers three different power inverter ranges. The following Table 3 provides a technical specification for all three different hybrid inverters. Max. DC voltage Max. Critical Load Max. AC current Green (ON): Normal status; Red (ON): Fault status.

How do I activate the warranty on my xstorage home?

Download the xStorage Home quick start guide. Download the safety guidelines. Download the xStorage Home technical sheet. Download the installation manual. Download the latest version of the firmware as well as the firmware update instructions. Register the xStorage Home you've installed for your customers in order to activate the warranty.

Das xStorage Home-System ist mit drei verschiedenen Akkukapazitäten lieferbar. Bei Batteriemodulen mit einer Leistung von 4,2 kWh werden wiederaufbereitete Akkus (2nd-Life) aus dem elektrischen Fahrzeug Nissan Leaf eingesetzt. Für Batteriemodule mit einer Leistung von

xStorage Home combines power electronics from global power management leader Eaton with new or used lithium-ion batteries from Nissan LEAF electric vehicles. It can be installed in a home as a hub for incoming and outgoing power, connecting renewable and grid power to the home and can, in some cases, even support ...

xStorage Home kombiniert Leistungselektronik des weltweit führenden Herstellers Eaton mit neuen oder 2nd Life Lithium-Ionen-Batterien von Nissan LEAF Elektrofahrzeugen. Man kann das System zu Hause

Xstorage home Nicaragua

als Leitstelle für ein- und ausgehende Energie installieren, erneuerbare Energien und Netzstrom an das Haus anschließen und in ...
