

ENERGY. Our sites in the West Country have reduced their carbon footprint by approximately 40% over the past two decades by making energy efficiencies in refrigeration and utilising heat recovery. We also have over 10,000 solar panels on our production sites in the South-west and one acre of solar panels on the cow shed at our founding farm.

However, Tajikistan's energy sector is prone to supply shocks. Energy policy focuses on providing uninterrupted energy access to all users while improving regio. Hydropower is the main source of energy in Tajikistan, followed by imported oil, gas and coal. However, Tajikistan's energy sector is prone to supply shocks.

GEI and YEO have set up a special purpose vehicle, Cooma Solar Power Plant Limited, to build and operate the project which will be built in the Choma district, southern Zambia. The Ministry's announcement didn't reveal the MW power of the battery energy storage system (BESS), only its 20MWh energy storage capacity.
